wall,
XL v-groove

unlock
a new look

100 % waterproof XL wall panels,

— v-groove look.

Renovation-friendly

A fresh look for your project? It's possible, without removing existing tiles. With Masq wall XL panels you can reveal the potential of every room with exceptional finesse and a high-level finish.

Perfect transition

Perfect transition between the different XL wall panels, even with uneven surfaces.

Authentic look

You will instantly appreciate your interior with Masq wall. The sand, stone and marble structure of our panels not only offers the warmth of natural materials but also has the right feel - ensuring every detail is right.

masq wall in a nutshell,

— all the benefits.

✔ **suitable for both renovation and new builds.**

No hassle with cement adhesives or grinders, the Masq panels can be pasted onto to the existing tile wall.

✔ **perfect transition.**

Irregular existing walls are not an issue thanks to the v-groove on the XL wall panel.

✔ **authentic look.**

Feels warm to the touch.

✔ **the affordable & safe alternative to expensive luxury ceramic panels.**

✔ **100% waterproof panels.**

✔ **no grouting required (dust-free & silent).**

The tongue-and-groove system avoids grouting and guarantees neat installation.

✔ **the slightly flexible XL panels are perfect for installation in smaller spaces.**

Easy to transport in an elevator or a narrow staircase.

✔ **4x faster installation compared to ceramic tiles.**

You can easily cut the tiles with a handsaw, circular or jigsaw and even a box cutter.

✔ **easy to install over existing wall coverings: no breaking or stripping required, no wall levelling.**

Less waste and fewer waste disposal costs, contributing to a cleaner environment.

✔ **5 mm thick but just as strong as a ceramic tile - no waste of useful space.**

futureproof production,

100% circular

At Masq, we are committed to creating a sustainable future. By sourcing our own raw materials and employing a unique patented RCB production technology, we ensure that all PVC waste generated during the manufacturing process is 100% recycled into new base materials. These materials are then reintegrated into the production of new Masq wall panels, creating a closed-loop system. With **zero waste production**, we proudly demonstrate our dedication to environmental preservation.

sustainable energy

Not only are our products 100% circular internally, but we also prioritise the use of **sustainable energy**. We are excited to share that we have installed an impressive 5,600 square meters of solar panels on our premises. This means that our operations are powered by renewable energy, reducing our carbon footprint and contributing to a greener planet.

robust, strong, durable,

tongue and groove system,
for easy and fast installation

100% waterproof wall panels are even
suitable for shower installation*

* Use in shower: seal with waterproof silicone

Long mounting lip to
prevent water infiltration.

Grooved backside to maximise
the bonding surface.

RCB[®] patented Rigid Core Board Technology

Thanks to our patented RCB technology, where the coex-stability layer is co-extruded with the premium PVC onto the base plate, our tiles & panels retain their shape after installation and we can guarantee top-of-the-range quality. This results in an exceptionally strong fixation of the multicoloured film and the base plate, even after years of contact with water.

Our advanced RCB technology allows us to produce lighter and higher-quality panels, which not only reduces the CO₂ footprint but also makes them more environmentally friendly. In addition, we are proud to say that our panels are made in Belgium, further reducing their CO₂ footprint.

— without worries.

Renovation-friendly

Want to give your project a fresh look? Masq tiles and XL boards can be installed without removing existing tiles or wall finish. Achieve the potential of every room with exceptional finesse and a high-level finish.

Choose the connection that suits you

Our tiles come with an elegant v-groove as standard. With the XL panels, you can choose the finish according to your style: **with a v-groove or a seamless connection.**

Authentic look

You will instantly appreciate your interior with Masq wall. The sand, stone and marble structures of our panels not only offers the warmth of natural materials but also has the right feel - ensuring every detail is right.
